Energy Total Capital

SOLAR MARKET PARITY DEVELOPMENT

Who We Are

Energy Total Capital s.r.l. was born from the idea of a young neapolitan entrepreneur who decides to combine the income from one of the most profitable sectors of the last ten years, renewable energy, with a **financial company**. Energy Total Capital is therefore a company actively operating in the energy efficiency and renewable energy sector.

Our Group

Greeninvest Capital s.r.l. is a Joint Venture born between **Energy Total Capital s.r.l.** and the **Margherita s.r.l.** group, leader in the wind sector in Italy. The focus is on the industry world and the development of our own photovoltaic systems on the roofs.

VEI Greenfield 3 s.r.l. in a Joint Venture which aims to develop, build and manage a portfolio of photovoltaic projects for at least 100MW on the national territory, born between **Energy Total Capital s.r.l.** and **VEI Green 2 s.p.a.**, vehicle of the Palladio Financial Holding group dedicated to investments in the Green sector.

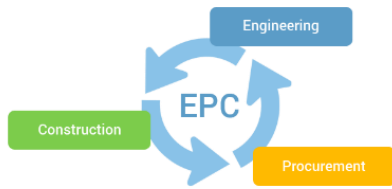

PROGETTO BALEENA is co-financed by the European Union, the Italian State and the Campania Region, under the ROP Campania ERDF 2014-2020. The project aims to identify innovative solutions for optimization, from the point of view of energy and working conditions, of a manufacturing process of production of tinplate food containers. The project is in collaboration with the **University of Campania L. Vanvitelli**.

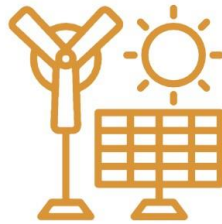

Energy Total Capital RO s.r.l. was born from the desire to expand its borders in Europe. The headquarters in Romania, with support of qualified technicians in the energetic world, will have objective to bring in **RTB 150MW** in the first year.

What We Do

EPC Contractor for renewable energy power plants

Renewable Energy Project Development

Financial Advisor to acquisition energy renewable plants

Project Financing for energy renewable plants

Monitoring of KPI and drafting of an energy report

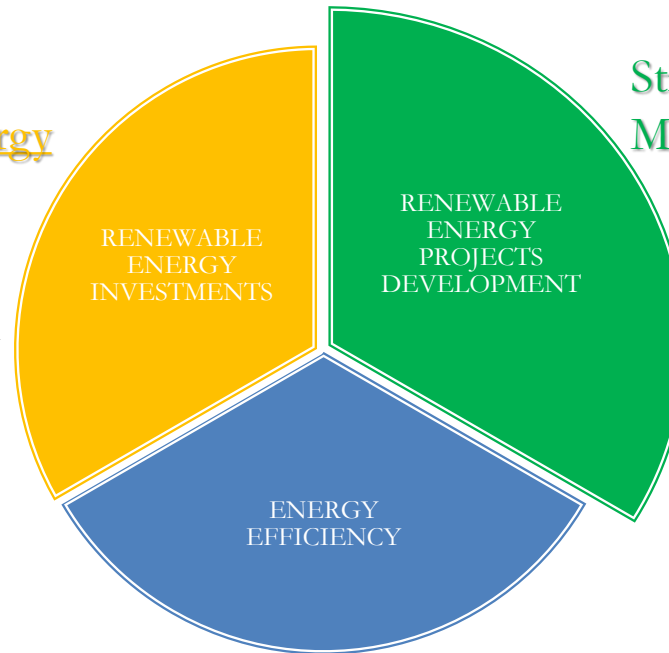

Operation & Maintenance

Renewable Energy Project Development

Cooperation with Largest European Renewable Energy Fund

- ❖ Flexibility that allows the diversification and a good performance of investments in various technologies and geographical areas
- ❖ Multidisciplinary team that is able to create added value through optimization of the investment process and management
- ❖ Careful selection of the asset
- ❖ Network well structured and proven with project developers, manufacturers, EPC and other staff

Strong Developer in Attractive Market

- ❖ Quality solar assets in markets with strong fundamentals
- ❖ **600 MW pipeline large scale projects**
- ❖ Led by experienced management team
- ❖ In-house development

20 MW of Energy Efficiency Pipeline

- ❖ Strong selection of Client
- ❖ High economic return
- ❖ In house engineering and execution

Renewable Energy Project Development

The choice of our sites is based on regulatory, geo-political, economic and social evaluation.

We guarantee the development of the project according “bankability standard” with an high level of success in the financing.

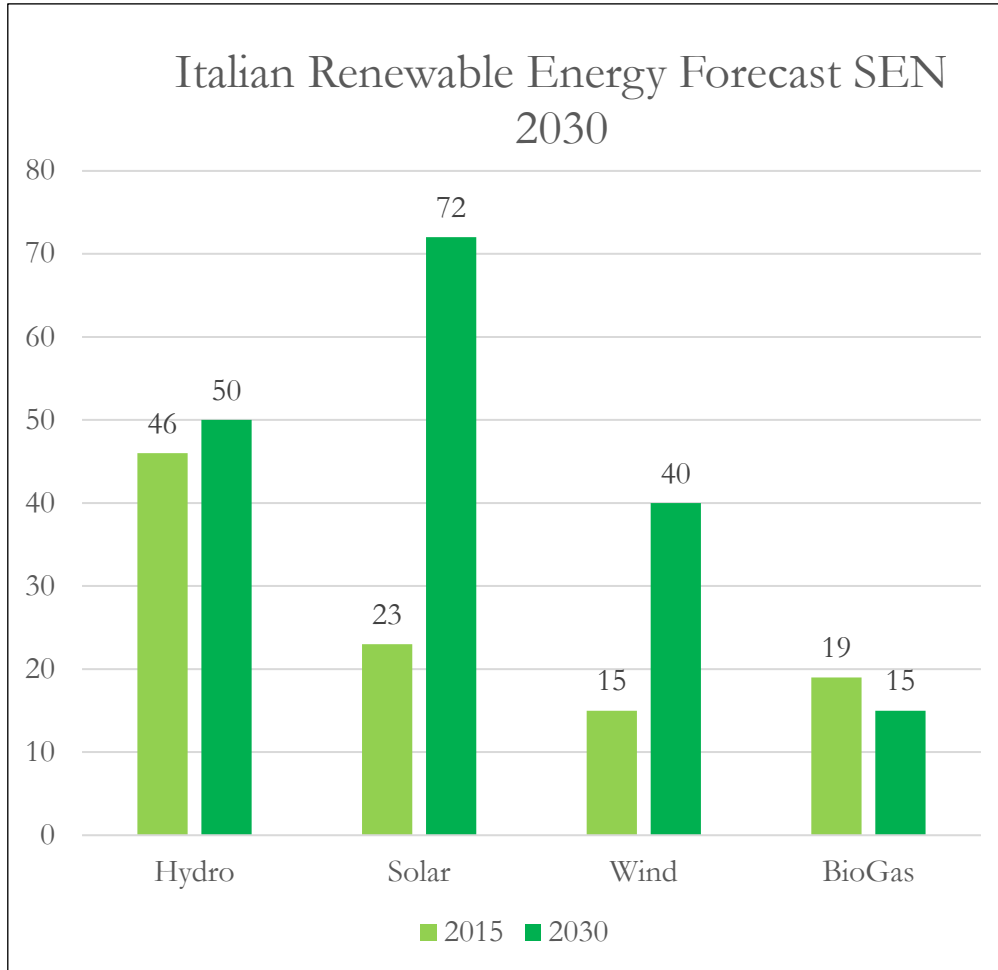

Professional Engineering Team is not only about WHAT we do, but HOW we do.

Big network of contacts in close contact with landowners and municipalities both in Italy and Romania.

Italy Energy Market

Solar PV + 49 TWh

Wind + 25 TWh

Why invest in Italy

World's Eighth-Largest Economy

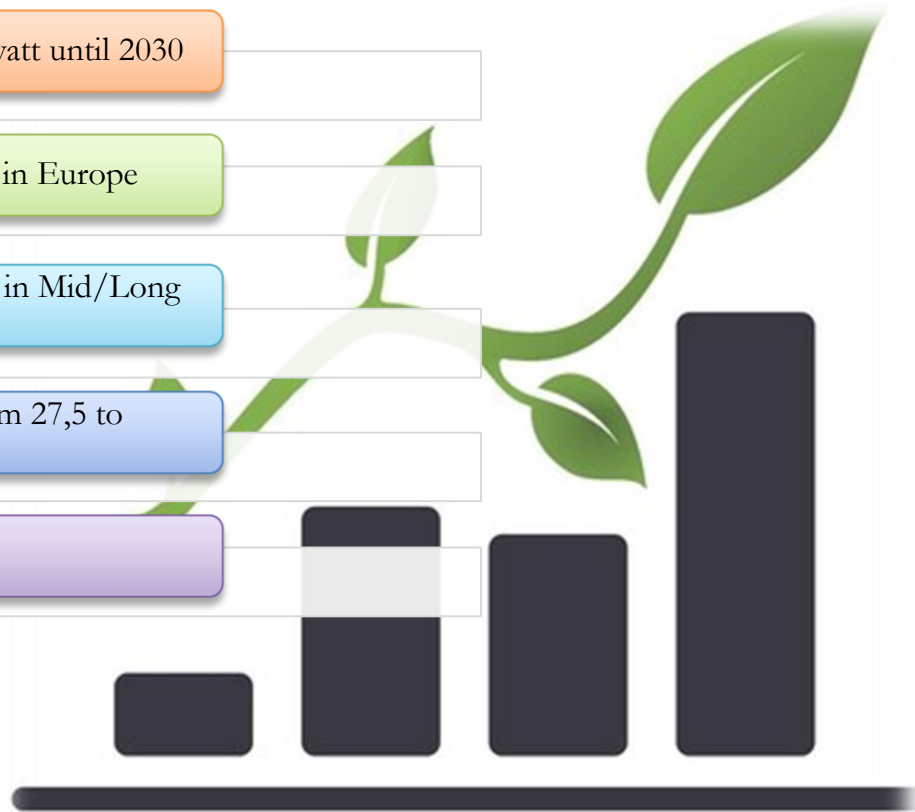

Forecasted PV Growth of 75 terawatt until 2030

Second Largest Solar PV Portfolio in Europe

Increasing Energy Price Evolution in Mid/Long Term

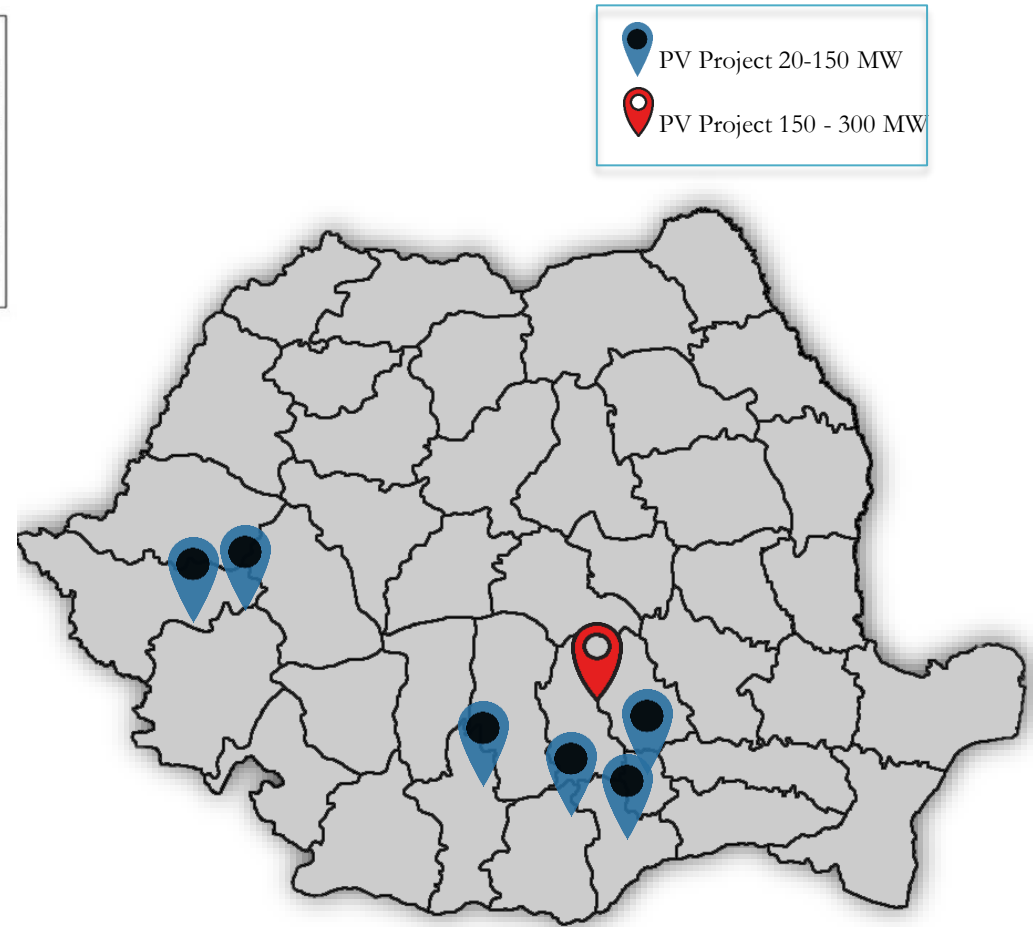

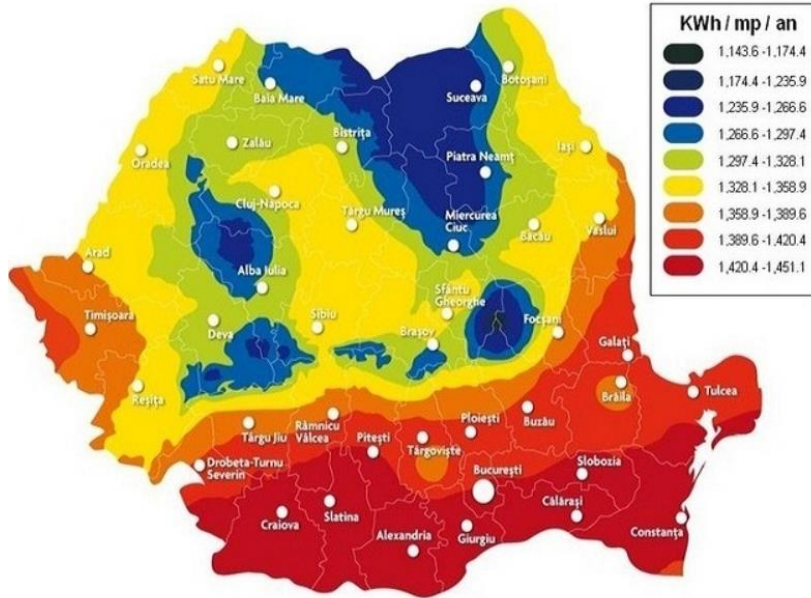

Corporate Tax Reducion from From 27,5 to 22%

Very Good Solar Irradiation

PV Development 2021 Market Parity Romanian Portfolio

350 MWp Authorization Process

Co-development Study

Law Firm

Bird & Bird

Studio Legale Bird & Bird
Via Flaminia, 133
00196 Roma - Italy

Management

Ernesto Taccogna – CEO (*Chief Executive Officer*)

Luca Marano – CIO (Chief Investment Officer)

Daniele Criscuolo – Chief Engineer

Gianmarco Durante – Sales Manager

Umberto Conte – Electrical Engineer

Giacomo Molisso – Urban Architect

Adriano Spada – Urban Architect

Salvatore Ciliberti – Back-Office Manager
